## A FAMILY TRADITION OF EXCELLENCE

In 1964, Shell Oil Company launched a company to distribute their quality fuels, lubricants and solvents. After a few years, Alton G. Layne, a Shell employee, bought the business from Shell. From then on, the name A.G. Layne became synonymous with a trusted family-owned business dedicated to serving major industrial markets. Today, we continue this tradition as a top-rated regional distributor in the Pacific Southwest known for reliability and customer relationships.

### EXPANDING MARKETPLACE PERFORMANCE

As a reputable chemical distributor, A.G. Layne provides the vital link between our country's top chemical, lubricant, and coating manufacturers, and the manufacturers who make the everyday products consumers buy across America. It is our responsibility to safely blend, package, and transport these important building blocks.

A.G. Layne is committed to delivering what our customers need to compete in the ever-changing marketplace. We still offer a wide variety of Shell's famous chemicals and solvents, as well as Shell's outstanding line of lubricants, but we also provide many other chemicals, solvents, and coatings, in addition to expanded services such as:

- High value packaging
- Tank truck quantities; IBCs; drums; pails; cases of one-gallon bottles
- Private labeling for production efficiency
- Compliant products for paint and coatings, printing, and metal finishing industries
- Plant Product Surveys
- Plant Safety Surveys
- Custom blending and specialty formulations

Innovative "in house" formulations that include:

- Brake Cleaners
- Graphic Arts Blends
- Lacquer Thinners
- Nail Polish Removers & Thinners
- VOC Compliant Blanket & Roller Washes; Ink Removers; MRC Blends; Solvent Cleaners, and Solvent Degreasers
